

Join the Silent Revolution...

Open Water

REBREATHER

Diver

The future is here! Learn to dive in silence on the Poseidon MkVI or SE7EN fully electronic Closed Circuit Rebreather (eCCR).

The silent operation of the MkVI or SE7EN allows you to get up close and personal with the marine life typically scared away by traditional Open Circuit diving. Become part of the underwater environment, not just a visitor!

Advantages of Closed Circuit Rebreather diving on a Poseidon MkVI or SE7EN Rebreather include:

- 3 hours typical dive time!
- Safe and easier to use than other rebreathers on the market
- Lighter and smaller than traditional Open Circuit Equipment
- No decompression stops

Beginner to Rebreather Diver

**** (This course is for a non-certified student) ****

- 3 Classroom Sessions
- 3 Pool Sessions (minimum of 300 minutes)
- 6 Open Water Dives (minimum of 300 minutes)
- All consumables (CO2 Scrubber, Oxygen Fills, and Disinfectant included)
- Use of a Poseidon MkVI or SE7EN during pool training.

\$899.00

Certified Diver to Rebreather Diver

- 2 Classroom Sessions
- 2 Pool Sessions (minimum of 200 minutes)
- 6 Open Water Dives (minimum of 300 minutes)
- All consumables (CO2 Scrubber, Oxygen Fills, and Disinfectant included)
- Use of a Poseidon MkVI or SE7EN during pool training.

\$799.00

Each student must have the required items of gear including: Mask, Snorkel, Fins, Booties, Weights, Whistle and Boat Bag. If these items are purchased from your Sea Sports Scuba location of choice, you will receive a **\$60** credit towards your purchase.

If you elect not to purchase a MkVI or SE7EN before or during your training, a \$200/weekend rental fee will be assessed for your Open Water or Deep Dives.
