For those of you that are unfamiliar with this event

Description: This is an exciting event where you and your dive buddy, will start at one of the dive platforms. There will be a slate with an Open Water question and two answers - each with a compass heading. One answer is correct, the other is not. If you choose the correct answer AND navigate properly, you will arrive at another location with a slate and a mesh bag with colored poker chips. You will take one chip from the bag, look at the slate, read the Open Water question and choose an answer. Follow the heading of your selected answer and off you go. And so on and so on. There are 5 colored chips to collect. If you choose the wrong answer you will end up at a location - but no slate or mesh bag! You'll have to go back and get the correct heading.

If you come back with 5 different colored chips you will be dealt 7 cards. If you come back with 4 colored chips, you will get 5 cards. If you come back with 3 or less, you get no cards. Whoever is dealt the best poker hand wins the cash pot **AND a custom WINNER poker chip!**

This is not a timed activity (fastest course time is for bragging rights only). We limit each team to a dive plan of 60 minutes, max depth is the bottom, and returning tank pressure of 200 psi. Average dive time is approximately 25 minutes.

forget
