AQUA LUNG®

Dive Computers

i300

25% OFF

In stock quantities only

The image shows a black Aqua Lung i300 dive computer with a blue strap. The digital display is lit up and shows four numbers: 21.9, 24.1, 32.9, and 36.1. The Aqua Lung logo is visible on the watch face.

Looking for your first dive computer?

What about that backup dive computer you have been talking about?

Well now is the time to come into one of Sea Sports Scuba locations and save big on Aqua Lung i300s. Whether wrist mounted or in a gauge setting, the i300 provides an easy-to-use interface, flexible operating modes, built-in backlight, user-changeable battery with data retention, and Nitrox ready. Great as a primary computer and as a backup computer.

Supplies are limited so don't wait too long!
